Introduction

The Grimsby Institute of Further and Higher Education (GIFHE) was established under the Further and Higher Education Act 1992 for the purpose of conducting its business. GIFHE is an exempt charity under Part 3 of the Charities Act 2011. In the delivery of its mission GIFHE uses brand names and trading styles in the public domain and includes, but not limited to: the Grimsby Institute Group; Scarborough TEC; Lincolnshire Regional College; The Academy Grimsby and Career 6. Policies, data protection registration and other documentation and legal requirements relating to or as part of the operation of brands are part of the Grimsby Institute of Further and Higher Education's legal status.

The Grimsby Institute of Further and Higher Education (GIFHE) needs to keep certain information about its employees, learners and other users to allow it to monitor such matters as performance, achievements and health and safety. It is also necessary to process information so that staff can be recruited and paid, courses organised and legal obligations to funding bodies and government agencies complied with. To comply with the law, information will be collected and used fairly, stored safely and not disclosed to any other person unlawfully. To do this, the GIFHE will comply with the Data Protection Principles which are set out in the Data Protection Act 1998 (the 1998 Act) and with the requirements of the Freedom of Information Act 2000. In summary these state that personal data shall:

- Be obtained and processed fairly and lawfully and shall not be processed unless certain conditions are met.
- Be obtained for a specified and lawful purpose and shall not be processed in any manner incompatible with that purpose.
- Be adequate, relevant and not excessive for those purposes.
- Be accurate and kept up to date and a printout of the data subject's data record provided to them every 12 months to check its accuracy.
- Not be kept for longer than is necessary for that purpose.
- Be processed in accordance with the data subject's rights.
- Be kept safe from unauthorised access, accidental loss or destruction.
- Not be transferred to a country outside the European Economic Area, unless that country has equivalent levels of protection for personal data.

GIFHE and all staff or others who process or use any personal information will ensure that they follow these principles at all times. In order to ensure that this happens, GIFHE has developed the following Data Protection Policy.

Status of the Policy

This policy does not form part of the formal contract of employment, but it is a condition of employment that employees will abide by the rules and policies made by the Corporation from time to time. Any failures to follow the policy can therefore result in disciplinary proceedings.

Any member of staff, student or governor, who considers that the policy has not been followed in respect of personal data about themselves, should raise the matter with the designated data controller initially. If the matter is subsequently not resolved to the satisfaction of the individual, it should be progressed as follows:-

For staff, through GIFHE'S Staff Grievance Procedure
For learners, through GIFHE'S Student Grievance Procedure. For
Governors, through the Clerk to the Corporation.

The Data Controller and the Designated Data Controllers

GIFHE as a corporate body is the data controller under the 1998 Act, and the Corporation is therefore ultimately responsible for implementation. However, the designated data controller will deal with day-to-day matters.

GIFHE's designated data controllers are:

- The Executive Director of ICT for all matters relating to data security.
- The Group Director of HR for all matters relating to staff data.
- The Executive Director of MIS for all matters relating to student/ applicant and other related data

Authorised Staff

GIFHE will designate staff in each area as 'authorised staff'. These staff are the only staff authorised to hold or process data that is:

- Not standard data; or
- Sensitive data.

The authorised staff are Associate Principals, Academy Head, Directors, Curriculum Managers and GIFHE Departmental Managers. The only exception to this will be if a non-authorised staff member is satisfied that the processing of the data is necessary:

- In the best interests of the student or staff member, or a third person, or GIFHE; and
- He or she has either informed the authorised person of this, or has been unable to do so and processing is urgent and necessary in all the circumstances.

This should happen only in very limited circumstances. (See appendix 1 for example)

Authorised staff will be responsible for ensuring that all data is kept securely.

Notification of Data Held and Processed

All staff, learners and other users are entitled to:

- Know what information GIFHE holds and processes about them and why.
- Know how to gain access to it.
- Know how to keep it up-to-date.
- Know what GIFHE is doing to comply with its obligations under the 1998 Act.

GIFHE will therefore provide all staff and learners and other relevant users with a standard form of notification by making this policy available on the GIFHE intranet and internet.

Members of the public are also entitled to access information, subject to certain controls, under the Freedom of Information Act.

Responsibilities of Staff

All staff are responsible for:

- Checking that any information that they provide to GIFHE in connection with their employment is accurate and up to date.
- Informing the GIFHE promptly of any changes to information already provided (eg: changes of

address).

- Checking the information (about information kept and processed about staff) that the GIFHE sends out from time to time.
- Informing GIFHE of any errors or changes. The GIFHE cannot be held responsible for any errors unless the staff member has informed the GIFHE of them.

If and when, as part of their responsibilities, staff collect information about other people, (e.g. about learner's course work, opinions about ability, references to other academic institutions, or details of personal circumstances), they will comply with the guidelines for staff, which are at appendix 1.

Data Security

All staff are responsible for ensuring that:

- Any personal data which they hold is kept securely.
- Personal information is not disclosed either orally or in writing or accidentally or otherwise to any unauthorised third party.

Staff should note that unauthorised disclosure will be deemed a disciplinary matter, and may in serious cases be considered gross misconduct.

Personal information will be:

- Kept in a locked filing cabinet; or
- In a locked drawer; or
- If it is computerised, be password protected; or
- If memory sticks are to be used then they have to be hardware encrypted drives (e.g. iStorage datashur 256-bit 4GB USB Flash Drive) that are stored in a locked cabinet to provide a double layer of security;
- Only kept away from
- Kept only on memory stick which is itself kept securely;
- Only kept away from GIFHE premises with prior written authorisation from an authorised staff and (where it is held on a computer) on GIFHE equipment.

Authorised Disclosures

GIFHE will, in general, only disclose data about individuals with their consent. However there are circumstances under which designated data controller may need to disclose data without explicit consent for that occasion.

These circumstances are strictly limited to:

- a. Learner data disclosed to authorised recipients related to education and administration necessary for the school to perform its statutory duties and obligations.
 - Where data is to be electronically transferred externally, the file has to be password protected as well as compressed (zipped) with strong password encryption.
- b. Learners data disclosed to parents/carers in respect of their child's health, safety and welfare.
- c. Learner data disclosed to parents/carers in respect of their child's progress, achievements, attendance, attitude or general demeanor within or in the vicinity of the school.

- d. Staff data disclosed to relevant authorities e.g. in respect of payroll and administrative matters, and statutory requirements.
- Where data is to be electronically transferred externally, the file has to be password protected as well as compressed (zipped) with strong password encryption.

Learner Obligations

Learners are expected to ensure that all personal data provided to GIFHE is accurate and up-to-date. They must ensure that changes of address, etc are notified to the student registration office, tutor or other person as appropriate.

Learners who use the GIFHE computer facilities may, from time to time, process personal data. If they do, they must first notify the designated data controller.

Rights to Access Information

In accordance with the law staff, learners and other users of GIFHE have the right to access appropriate 'personal data' that is being kept about them either on computer or in certain files. Any person who wishes to exercise this right should write to the designated data controller.

In order to gain access, an individual may wish to receive notification of the information currently being held. This request should be made in writing.

GIFHE reserves the right to make a charge on each occasion that access is requested where significant administrative and/or management time will be involved in meeting the request. The level of this charge will be reviewed by GIFHE from time to time and changed as appropriate.

GIFHE aims to comply with requests for access to personal information as quickly as possible, but will ensure that it is provided within the statutory 40 days unless there is a good reason for delay. In such cases, the reason for delay will be explained in writing to the data subject making the request. Note that a processing fee of £10 may be charged depending on the data requested and the resources required to allow the access to the data.

Requests to access information from Learners

Requests from learners aged 14-16 will be processed as any subject access request and the copy will be given directly to the student, unless it is clear that the student does not understand the nature of the request.

Requests from learners who do not appear to understand the nature of the request will be referred to their parents/carers.

Requests from parents/carers in respect of their own child will be processed as requests made on behalf of the data subject (the child) and the copy will be sent in a sealed envelope to the requesting parent/carer.

With regard to requests from parents/carers in respect of their own child who is over the age of 16, permission will be sought from the student concerned and data will be sent in a sealed envelope to the requesting parent/carer only if such permission is granted.

Publication of GIFHE Information

It is GIFHE's policy to make as much information public as possible. GIFHE has lodged its registration details with the Information Commissioner.

Subject Consent

In many cases, under the Data Protection Act, GIFHE can process personal data only with the consent of the individual. In some cases, if the data is sensitive (eg: race or ethnic origin, physical or mental health), **express consent** must be obtained. Agreement to GIFHE processing some specified classes of personal data is a condition of acceptance of a student onto any course, and a condition of employment for staff. This includes information about previous criminal convictions.

Some jobs or courses will bring the applicants into contact with children, including young people between the ages of 14 and 18. GIFHE has a duty under the Children Act and other enactments to ensure that staff are suitable for the job, and learners for the courses offered. GIFHE also has a duty of care to all staff and learners and must therefore make sure that employees and those who use GIFHE facilities do not pose a threat or danger to other users.

GIFHE will also ask for information about particular health needs, such as allergies to particular forms of medication, or any conditions (such as asthma or diabetes). GIFHE will use the information only in the protection of the health and safety of the individual, but will need consent to process it (e.g. in the event of a medical emergency).

Therefore, all prospective staff and learners will be required to sign their Consent to Process which is on the employee application form and the student enrolment card, regarding particular types of information when an offer of employment or a course place is made. A refusal to sign such a form may result in any offer of a course place/employment being withdrawn. A separate consent form will be available for parents/carers of the 14-16 Academy learners.

In the event that a student withholds consent from the disclosure of any “sensitive data” (e.g. not informing a tutor of their learning difficulty or disability), GIFHE will respect that wish, even though it might be seen as disadvantaging their learning.

Processing Sensitive Information

Sometimes it is necessary to process information about a person’s health, criminal convictions, race and gender and family details, (health and criminal conviction information for 14-16 year olds, will be process in line with legislation). This may be to ensure GIFHE is a safe place for everyone, or to operate other GIFHE policies, such as the sickness policy or equal opportunities policy. Because this information is considered sensitive, and it is recognised that the processing of it may cause particular concern or distress to individuals, staff and learners will be asked to give express consent for GIFHE to do this. Offers of employment or course places may be withdrawn if an individual refuses to consent to this, without good reason. More information about this is available from the designated data controller, Associate Principals, Academy Head, Directors, Managers, the HR Department or MIS.

Examination Marks

Learners will be entitled to information about their marks for both coursework and examinations. However, this may take longer than other information to provide.

Retention of Data

GIFHE will keep some forms of information for longer than others. Because of storage limitations, information about learners cannot be kept indefinitely, unless there are specific requests to do so. In general information about learners will be kept for a maximum of seven years after they leave GIFHE. This information will include:

- Names and address
- Academic achievements, including marks for coursework and
- Copies of any reference written.

In general, all information about staff will be kept for seven years after a member of staff leaves GIFHE. Some information, however, will be kept for much longer. This will include information necessary in respect of pensions, taxation, potential or current disputes or litigation regarding the employment, and information required for job references. A list of information with retention times is set out below:-

Data Subject	Data	Period of Retention
Learner	Names and addresses Academic achievements Copies of references written	6 years + current year
Learner	Any computerised records	Minimum 7 years
Learner	Any financial record	6 years + current year
Learner	Any health & safety record	40 years
Learner	Any accident report	3 years
Learner	Other student records	3 years
Staff	Staff Payroll records	6 years + current year
Staff	Any health & safety record	7 years
Staff	Any accident report	3 years

It is the duty the of the designated data controller to ensure that obsolete data is properly erased.

Conclusion

Compliance with the 1998 Act is the responsibility of all members of GIFHE. Any deliberate breach of the data protection policy may lead to disciplinary action being taken, or access to GIFHE's facilities being withdrawn, or even a criminal prosecution. Any questions or concerns about the interpretation or operation of this policy should be taken up with the designated data controllers.

Review

This policy will remain in force until amended or withdrawn by the Corporation after consultation with staff.

This policy should be read in conjunction with the following:

Safeguarding Policy
Medical Treatment of Learners

APPENDIX 1

Staff Guidelines for Data Protection

1. Staff will process data about learners on a regular basis, when marking registers, or GIFHE work, writing reports or references, or as part of a pastoral or academic supervisory role. GIFHE will ensure through registration procedures that all learners give their consent to this sort of processing, and are notified of the categories of processing, as required by the 1998 Act. The information that staff deal with on a day-to-day basis will be 'standard' and will cover categories such as:
 - General personal details such as name and address,
 - Details about class attendance, course work marks and grades and associated comments
 - Notes of personal supervision, including matters about behaviour and discipline.
2. Information about a learner's physical or mental health (eg: recording information about dietary needs, for religious or health reasons prior to taking learners on a field trip; recording information that a student is pregnant; as part of pastoral duties); political or religious views; trade union membership or ethnicity or race is sensitive and can only be collected and processed with the student's consent. If staff need to record this information, they should use the standard GIFHE form.
3. All staff have a duty to make sure that they comply with the data protection principles, which are set out in the GIFHE's Data Protection Policy. In particular, staff must ensure that records are:
 - Accurate;
 - Up-to-date;
 - Fair;
 - Kept and disposed of safely, and in accordance with the GIFHE's policy.
4. GIFHE will designate staff in each area as 'authorised staff'. These staff are the only staff authorised to hold or process data that is;
 - Not standard data; or
 - Sensitive data.

The only exception to this will be if a non-authorized staff member is satisfied that the processing of the data is necessary:

- In the best interests of the learner or staff member, or a third person, or GIFHE; and
- He or she has either informed the authorised person of this, or has been unable to do so and processing is urgent and necessary in all the circumstances.

This should happen only in very limited circumstances (e.g. a learner is injured and unconscious, but in need of medical attention, and a staff tutor tells the hospital that the student is pregnant or is a Jehovah's Witness).

5. All staff will be responsible for ensuring that all data is kept securely.
6. Staff must not disclose personal data to any learner, unless for normal academic or pastoral purposes, without authorisation or agreement from the designated data controller, or in line with GIFHE's policy.
7. Staff shall not disclose personal data to any other staff member except with the authorisation or agreement of the designated data controller, or in line with GIFHE policy.
8. Before processing any personal data, all staff must consider the following checklist.

Staff Checklist for recording data

- ***Do you really need to record the information?***
- ***Is the information 'standard' or is it 'sensitive'?***
- ***If it is sensitive, do you have the data subject's express consent?***
- ***Has the individual been told that this type of data will be processed?***
- ***Are you authorised to collect/store/process the data?***
- ***If yes, have you checked with the data subject that the data is accurate?***
- ***Are you sure that the data is secure?***
- ***If you do not have the data subject's consent to process, are you satisfied that it is in the best interests of the student or the staff member to collect and retain the data?***
- ***Have you reported the fact of data collection to the authorised person within the required time?***
